

GreenWatt Lighting

BUILT BY EDUCATORS, FOR EDUCATORS

The BIG 2 Impact

1. ENHANCED SAFETY

- Students are now extremely sensitive to emergency protocol light colors.
- Administration User APP mirrors State of Texas Emergency Protocols.
- Administration uses safety lights during emergency drills.
- Lights integrate with Automatic Door Locks.
- “Door Ajar” Feature - Doors are always secured.
- Walkie-Talkie’s – Lights integrate with Panic Button.

2. INCREASED LEARNING ENVIRONMENT

- Lighting Colors are instantly calming, especially for students with learning disabilities (Special Education Classrooms).
- LED lights & variable light colors used to eliminate sensitivities.
- Students have decreased Tardies - Lights Integrate with Class Bell Schedule.
- Dynamic lighting in classrooms, pair with lesson plan.
- Extremely User-friendly for administrators and staff."

WHAT IS KID-CENTRIC™ LIGHTING?

Our Kid-Centric lighting solution is focused on providing a system of supports to adjust the learning environment for KIDS. We accomplish this through the dynamic transformation of the classroom using our lighting and control systems.

HOW DOES OUR SAFETY LIGHTING SYSTEM WORK?

Our Safety Lighting System Links & Syncs colored LED lights, using a simple to control App and Safety Protocols to provide one of the most versatile and reliable visual safety solutions available.

HOW DOES OUR FUNCTIONAL LIGHTING ENHANCE SPECIAL EDUCATION ENVIRONMENTS?

In Special Education, educators utilize both verbal and visual prompts. Controllable lighting is utilized as a training enhancement and visual tool to shape, teach and instruct students with disabilities.

WHAT IS OUR “SECURE THE PERIMETER” LIGHTING SOLUTION?

Our “Secure the Perimeter” system utilizes colored light bars above every exterior door on the campus. Light bars on the inside and outside of the doors are used to display the STATUS of each door (Open or Closed).
