An Innovative Reading Solution Customized For Each Student

MindPlay's adaptive technology assesses each student's current reading level across your school or district, then assigns a personalized curriculum to support targeted growth:

Struggling readers and students with knowledge gaps receive direct, explicit, systematic reading instruction to bring them up to grade level.

Strong readers receive systematic reading practice to increase speed and fluency while expanding their comprehension.

Tested and True Learning Methods

- Based on Orton-Gillingham's structured literacy approach.
- Lessons delivered by certified speech pathologists - right on the screen!
- Average student can find success in as little as 20 hours!
- Aligns to the Science of Reading.
- Ensures continual, measurable, and sustainable progress.

MindPlay Has Taught Over Seven Million Students to Read!

Appropriate for all ages, our online literacy program provides assessment driven instruction and repeated opportunities for students to achieve reading mastery.

ASSESSMENT

The Universal Screener will guide students through an adaptive test to assess their skills.

LESSONS

An individualized syllabus is created for every student assigning only the lessons they need to advance.

REPORTS

Real-time reporting puts a wealth of data in the hands of teachers allowing them to address issues immediately.

ACHIEVE

When lesson mastery happens, students receive coins that allow them to enhance avatars or unlock new themes.

We Advance the Development of Literacy Skills Using the Science of Reading Components.

- ▶ Phonemic Awareness
- ▶ Phonics

- ▶ Grammar for Meaning
- ▶ Comprehension Strategies

- ▶ Silent Reading Fluency
- ▶ Vocabulary
