

Simmons Bank's Purchase Card for Schools

Simmons Bank's purchase card solution helps you streamline your district's financial management by providing you more efficiency, control and security. You'll be able to cut costs, eliminate paperwork, expedite delivery and improve cash flow. Instead of writing check after check to pay invoices each month, employees use their purchase card just like they would a traditional credit or debit card.

WHAT ARE THE BENEFITS?

- Set spending limits by department, division and employee.
- Set limits on daily, monthly and transaction amounts, or restrict card use to specific types of purchases or vendors.
- Gain a consolidated picture of your company's spending through their web-based expense, statement and report management system.
- Receive a 1.05% annual rebate on all purchases.

Simmons Bank maintains a highly skilled team of experts who are specifically responsible for ensuring your success and satisfaction. From implementation and training to answering questions on your purchase card program and providing card account maintenance, the team quickly responds to cardholder needs in real-time.

HOW DO I LEARN MORE?
